What is MyStudentBody®-Admin?

MyStudentBody®-Admin is a feature on MyStudentBody that is designed to meet the unique needs of campus professionals. MyStudentBody-Admin contains various tools for administrators to manage the student site, parent site, and staff site, as well as access reports, and assist with the implementation of MyStudentBody program to students.

MyStudentBody®-Admin Features:

Reporting and Tracking

Course Completion Reports: Keep students from falling through the cracks by tracking program completion on an individual student and school-wide basis

Alcohol and Drug Use: Ever wonder how your school stacks up? See how alcohol and drug use at your school compares to all MSB schools

Risks and Consequences: Make sure you're informed. Explore data on risky behaviors that student engage in after consuming alcohol

Full-featured Course Satisfaction Survey Report: Looking for feedback? Now you can view in-depth student satisfaction on the course itself.

Customizable Campus Experience

MyStudentBody-Admin gives administrators the ability to customize their campus experience. The self-service feature allows administrators to tailor their messaging and reporting according to a school's needs

Implementation Support

MyStudentBody-Admin's Documents Center includes marketing support and promotional ideas, program user-guides, and information on the scientific concepts behind the MyStudentBody comprehensive program. Our customer implementation specialist is also on hand to offer additional support.

The MyStudentBody comprehensive program is a complete wellness and substance abuse resource that was developed with \$6 million in grants from the National Institutes of Health. MyStudentBody is geared to a dual audience: sensitively combating the health-related risks of college students while addressing the administrative concerns of campus professionals. All MyStudentBody subscriptions include unlimited access to real-time aggregated data via MyStudentBody-Admin.
