

MyStudentBody-Sexual Health

National Institute on Mental Health (NIMH) SBIR #5R44MH61670-02

7/15/2000-8/31/2004

PI: Sarah Lord, Ph.D.

Compared to students in control conditions (text-based website and no treatment), students who used MyStudentBody-Sexual Health exhibited significantly greater increases in STD- and condom- specific knowledge, intentions to practice safer sex, positive attitudes about condoms, and self-efficacy for negotiating safer sex with a partner. At the six-month follow-up, students that visited MyStudentBody-Sexual Health were also three times more likely to have protected sex with any partner (at six months).
